Page 6 ... Brand New!

60017-Blast Pad®.....**NEW**

The latest **Blast Pad®** dominates the competition. We have launched it well over 200'. It is designed to handle jump after jump, launch after historic launch. Our missiles will fly higher and stay in the air longer than anything else in its class, guaranteed! It's time to get outside and play.

Ages 6 and up

Launch over 200 feet

Package Includes:

- 1 Blast Pad® Launcher
- 3-10.5" Missiles
- Some assembly required

Over 17" tall

New lower price point!

BLAST PAD PRO

60014-Blastpad® Pro

The **Blastpad® Pro** concept is simple. It was developed to launch our proprietary Blastpad® Pro missiles unbelievably high. So high that you won't even ask how high. You will just look up and say "whoa" in disbelief. These missiles travel farther and stay aloft longer than anything else on the market (without an engine or stored energy). The Blastpad® Pro will perform better than your child's imagination could stand. Imagine sending a Blastpad® Pro missile well over the length of a football field with minimal effort. Imagine looking up and losing sight of it as it touches the clouds and carries on a conversation with new alien life forms (ok, that one was a little dramatic). But really... the most common question over the years with Blastpad® Pro is "how high does it go?" Our standard answer is "how high can you jump?" Now we have the answer! Whoaaaaa! Way high. The **Blastpad® Pro** will satisfy any kid interested in sending stuff skyward. Make sure you have some serious space 'cause this Blastronaut is gonna take out a few cumulus clouds (too dramatic again?).

Comes with 3 **Blastpad® Pro Missiles**.

FAUX 3 BOW™

The feel of real archery™

New "Bow-Tip" Quiver holds 6 Arrows

61006-Faux Bow™ 3

This is the best **Faux Bow™** yet. I wanted to invent a bow that has the look and feel of real archery. I wanted it to be solid and well made. I invented the original Nerf® Bow many years ago. After it was taken off the market, many foam shooting toys followed. All were very high tech and shot multiple projectiles at different speeds and distances. They just didn't have the feel of archery. I felt returning to a low tech approach was the answer. It feels great to load up an arrow and pull back. Relaxing your fingers on the handle lets the arrow fly off at amazing speeds. Now it holds more arrows than ever before and it's more powerful as well.

Over 18" in Diameter

90022-Rings

Think "Darts" but with "Rings" and with different rules. Simple to learn and easy to play. The rings throw easily and hook securely. Over 18" in diameter. Comes with a set of six rings.

Ages 6 and up

Rings is one of the simplest games to play and the hardest to master. You start with a number like 301. Everytime you hook a ring you subtract that number from your score. First to "0" wins. There are a few end rules that make the finish more interesting but you get the point. Simple... You can throw the ring underhand or overhand. In fact you can throw it anyway you like. There is no wrong way to fling your ring.

90021-Doinkit® Racket Set

Doinkit® is a cross between Badminton and "Hair Curlers." Think of it as a "Snowflake on steroids." What makes a Doinkit® really amazing is the control you have over it. Unlike a badminton birdie, it bounces and is incredibly forgiving of miss-hits. It can be played at a fast pace or casually "Doinked" back and forth. Pick up a Doinkit® and experience the ultimate volley....

Ages 6 and up

MUMBLYS™

Games of Skill, Precision,
Braggadocio and Bravado™

Uses Neodymium Magnets

81001-Mumbly's™

Mumbly's™ is a simple game. The rules were kept simple for a reason. Like all schoolyard games from the past... rules were meant to be broken. The idea that "house rules" are developed and learned by the locals is what Mumbly's™ are all about. Comes with 3 Mumbly's™, a scoring dart, a rules booklet and a game tin.

6 60615 81001

Each tin comes with official rules but with an understanding that new "house" rules could and should be created, allowing for creativity and a certain regionalism to Mumbly™ play.

AniMails™

MAKING MAIL FUN™

Dear Sparky

Add Postage...
(First Class postage around \$3.25)

AniMails™ take you back to yesteryear when folks used to communicate with a thing called a letter. It was a more personal form of communication. One could express themselves in a more permanent fashion. In today's hurry up world and lightning fast notes, **AniMails™** is a breath of fresh air. Just write someone a letter right on your **AniMail™**. Address it, stamp it and give it to your friendly neighborhood postal worker. Your wonderful words will be on their way "post quick." Just picture your personal sentiments displayed on the shelf for all the world to see... (maybe you should keep them G-Rated) **AniMails™** are also great for autographs or team signings for your favorite coach or teacher. Be creative. Be spontaneous. Above all be careful your **AniMail™** isn't left near a jar full of cookies!

Ages 3 and up

You can write nice things about Marky Sparky here or just jot down your notes:

It's 2018. This year we are introducing some really fun stuff that requires the obligatory legalese. Our lawyers make us tell you that Blast Pad®, Doinkit® and Spinmallow® are all registered trademarks of Marky Sparky Inc. Marky Sparky™, Mumbly's™, Wahoo™, Faux Bow™, Foamies™ Money Grubber™, Animal Writes™ and AniMails™ (and anything else in the catalog that has a TM next to it) are all trademarks of Marky Sparky, Inc. Color and parts may vary from those pictured. This catalog, the images, copy, and products are all ©2018, Marky Sparky Inc. All rights reserved. No part of this catalog may be used without the express written permission of Marky Sparky Inc.

Nobody reads this stuff at the back but I need something to take up space as a graphic treatment so that is why I am still typing. If I write enough here it looks more important like we are a big company and have important things to say. We are not and we don't. I feel as if this is enough fine print and I have my graphic treatment so I will stop writing now.

Now it's time for this years bad joke that will be printed on thousands of catalogs and live forever in obscurity:

Q: Why was the report card all wet?
A: Because the grades were all below C-level!

Back by popular demand...

Since you're still reading this we wanted to inform you that Marky Sparky has great Reps. We love our Reps. We support our Reps. We hope you allow them to support us as well. Please treat them with kindness and care and respect. Give them a hug once in a while to let them know how special they are... Maybe even buy them a cup of coffee. We are all in the toy business. The best place to be in all the world. It is supposed to be fun. Let's have some.

Color and parts may vary from those pictured in this catalog because at the time of printing they may not have existed

All patents are listed on our website
<https://www.markysparkytoys.com/patents/>

This is very important so read it: Instead of putting a "Choke Hazard, Small Parts" label on every page... I am putting it here. Every product we sell has small parts and therefore not suitable for kids under 3.
